What We Do...

As well as our comprehensive range of medical furniture, we manufacture and stock a wide range of Controlled Drugs Cabinets to cater for all your requirements. We like to think we know a lot about medicine and drugs storage, it's how we started and is still the core of what we do. If you need a special size, we can do that too. Just let us have your specific sizes and we'll manufacture it, to your exact specifications, it's that simple.

Misuse of drugs (Safe Custody) regulations 1975

Our controlled drugs cabinets are manufactured in the U.K. and meet, or surpass, the requirements of the "Misuse of Drugs (Safe Custody) Regulations 1973" and BS2881:1989 level one, the requirement for the storage of controlled drugs in the United Kingdom. Built in our own production facilities in the East Midlands, our controlled drugs cabinets are of superior quality compared to many others currently available and we invite you to come see for yourself, it would be a pleasure to demonstrate our cabinets to you.

Savings!

We offer you a significant saving buying direct from us, the manufacturer, and the complete assurance that all of our controlled drugs cabinets meet or exceed "The misuse of Drugs (safe custody) Regulations 1975".

Bespoke!

Pharmacy Medical® can produce purpose-made controlled drugs cabinets to suit your specific and unique requirements, email Pharmacy Medical® today. Or telephone [01623 559966](tel:01623559966) for an extremely competitive quote!
